# Artistic journey in Paros

7 - 15.07.2012

ΔΗΜΟΣ ΠΑΡΟΥ

Κ.Δ.Ε.Π.Α.Π.

K.D.E.P.A.P.'s primary pursuit is the reinforcement of the cultural identity of this charismatic Cycladic island, which since antiquity has shown a dynamic artistic presence. This happened both directly through the famous creators in the fields of arts and letters and indirectly through the unique marble of Paros, (the famous Parian stone) from which many masterpieces were created. But we mainly ought to support and promote the artists who live, get inspired and create on the island regardless of nationality, origin and orientation. They are all "Parians" one way or another since they are sensitive to the charismatic atmosphere of Paros. This year's artistic journey signals their permanent support by K.D.E.P.A.P., the Friends of Paros and the local residents.

**Anna Kagani-Kortianou**  
K.D.E.P.A.P. President

Notably creative as much as culturally necessary is the initiative by Friends of Paros and K.D.E.P.A.P. to organize the "Artistic Journey" from July 7-15, 2012 - with the undivided support of the latter - at the workrooms of Greek and foreign painters, sculptors, carvers, ceramists and photographers who live and create on the beautiful Cycladic island of Paros, famous since antiquity for its high cultural level, the Cycladic figurines, its notable creators and the famous Parian marble. This journey offers the opportunity to Parians and to seasonal visitors, both Greek and foreign, to know the artists of this Aegean island, to become familiar through a fruitful dialogue with both the Greek and foreign artists who, although they have different orientations, they are nonetheless still considered as Parians, since they live and create on the island of Archilohos and Scopas.

The artists, brought up with and being sensitive to the particularities of the island's natural beauty, exceptional climate, unique light and atmosphere clarity, contribute to Paros cultural presence through the years, constituting at the same time a significant center for the locals and the seasonal visitors, both Greek and foreign. The inaugural event for this artistic journey will take place in Aghia Anna (Parikia).

All the parallel events will offer the opportunity to the visitors to enjoy the creations of those artists who responded to our invitation, to develop a fruitful dialogue with them, to point out the osmosis between two different civilizations, different aesthetic solutions, views and techniques, realized and initialized here by the Parian aura. What visitors will mainly experience is the devotion and the creative passion of each artist, seen on site.

With the "Artistic Journey" just as with the "Symposium on Sculpture" which was organized last year in the area of the ancient quarries, Paros contributes to the cultural tourism in our country; a significant initiative during the bad and difficult times Greece so unfair experiences, Greece who "never dies and again heads towards glory".

**Dora Iliopoulou-Rogan**  
Dr. Of Art History • Critic  
Officier des Arts et Lettres

I feel especially thankful for the support of the Municipality and the Friends of Paros for this year's realization of such an important cultural event on this Aegean island, which since ancient times has been interweaving with the arts. This event gets an additional significance because of the difficult times our country experiences.

Through the artists, both Greek and foreign, who create here, in the charismatic atmosphere of the island of the Parian stone and Scopas, Paros contributes in making internationally known our priceless civilisation and true art; the kind of art which is authentic and expresses an Idea and not the international art which serves physical behalves. This Idea corresponds to the supreme virtue of a civilization which has prestige and consistency through the years.

Having already highlighted the artistic dynamic of Paros and organised exhibitions in the European Parliament, we now envisage activating an essential introduction among the local people, the visitors and the creators, who regardless of nationality and origin, live, are inspired and create in the unique atmosphere of the island.

Let them all remember what civilization means, not as an expendable good but as an Idea. With this event we look forward to contributing to the development of the cultural tourism, so crucial to our country, always motivated by the love of our island.

**Γεώργιος Βλαντάς**  
Πρόεδρος των Φίλων της Πάρου
